EPA agrees to Bar Mills cleanup

Associated Press

BAR MILLS - The Environmental Protection Agency has agreed to take charge of the demolition and cleanup of potential hazardous materials at a fiberboard mill that closed 18 years ago.

The federal agency is willing to commit up to \$960,000 to the project, U.S. Sen. Olympia Snowe said Thursday.

The Rogers Fibre Mill has deteriorated since it stopped producing fiberboard in 1980. Some

residents had feared that the mill would eventually collapse into the Saco River.

Snowe brought the matter to the attention of the EPA on behalf of the Board of Selectmen in neighboring Buxton.
